Subpart Q—Substitution of Finished Petroleum Derivatives

§ 191.171 General; Drawback allowance.

(a) *General.* Section 313(p), of the Act, as amended (19 U.S.C. 1313(p)), provides for drawback on the basis of qualified

articles which consist of either imported duty-paid petroleum derivatives, or petroleum derivatives manufactured or produced in the United States and qualified for drawback under the manufacturing drawback law (19 U.S.C. 1313(a) or (b)).

(b) *Allowance of drawback.* Drawback may be granted under 19 U.S.C. 1313(p):

(1) In cases where there is no manufacture, upon exportation of the imported article, an article of the same kind and quality, or any combination thereof; or

(2) In cases where there is a manufacture or production, upon exportation of the manufactured or produced article, an article of the same kind and quality, or any combination thereof.

§ 191.172 Definitions.

The following are definitions for purposes of this subpart only:

(a) *Qualified article.* “Qualified article” means an article described in headings 2707, 2708, 2710 through 2715, 2901, 2902, or 3901 through 3914 of the Harmonized Tariff Schedule of the United States (HTSUS). In the case of headings 3901 through 3914, the definition is limited as those headings apply to liquids, pastes, powders, granules and flakes.

(b) *Same kind and quality article.* “Same kind and quality article” means an article which is commercially interchangeable with, or which is referred to under the same 8-digit classification of the HTSUS as, the article to which it is compared. (For example, unleaded gasoline and jet fuel (naphtha or kerosene-type), both falling under the same HTSUS classification (2710.00.15) would be considered same kind and quality articles because they fall under the same 8 digit HTSUS classification, even though they are not “commercially interchangeable”.)

(c) *Exported article.* “Exported article” means an article which has been exported and is the qualified article, an article of the same kind and quality as the qualified article, or any combination thereof.
